MONITORING WELL EASEMENT AGREEMENT

THIS MONITORING WELL EASEMENT AGREEMENT ("Agreement") is made this 27 day of $\frac{1}{2}$ day of $\frac{1}{2}$, 1991, by and among PORT OF TACOMA, a Washington municipal corporation ("the Port"), THE PUYALLUP TRIBE OF INDIANS, a federally recognized Indian Tribe ("the Tribe"), and REICHHOLD CHEMICALS, INC., a Delaware corporation ("Reichhold").

RECITALS

- A. The Port owns, and the Tribe is entitled to acquire pursuant to the Agreement described in Recital E below, certain real property located in Pierce County, Washington, commonly known as the Blair Waterway Property and the Blair Backup Property, and more particularly described on EXHIBIT A attached hereto and incorporated herein by reference (collectively, "the Port Property").
- B. Reichhold owns certain real property adjacent to the Port Property and more particularly described on EXHIBIT B attached hereto and incorporated herein by reference ("the Reichhold Property").
- C. Pursuant to the terms of RCRA Permit WAD 009 252 891 as the same may be modified from time to time ("the RCRA Permit"), Reichhold is required by the United States Environmental Protection Agency ("EPA") to establish and maintain on the Reichhold Property a facility for the storage, treatment and disposal of certain hazardous wastes. Reichhold is required, among other things, to:
- (i) install, maintain, repair, replace and regularly monitor certain monitoring wells on the Port Property ("the monitoring wells");
- (ii) install, maintain, repair, replace and operate an extraction well system which includes two extraction wells on the Port Property and related fixtures and appurtenances, including, but not limited to, pumps, pipes, equipment, electrical lines and vaults and cables ("the extraction well system"); and
- (iii) connect the treatment facility located on the Reichhold Property to an acceptable sewer system to permit disposal of water treated at the Reichhold facility in accordance with the RCRA Permit.
- D. Reichhold has installed the monitoring wells on the Port Property pursuant to certain written agreements and has

undertaken a regular monitoring program in accordance with its RCRA Permit. Reichhold has also installed the extraction wells on the Port Property, but has not yet installed the utilities necessary to make them functional.

- E. Reichhold's RCRA obligations and the obligations of the Port pursuant to that certain Agreement between the Puyallup Tribe of Indians, the Port and others dated August 27, 1988, including the Technical Documents which are a part of that Agreement and the Supplemental Agreements thereto dated March 21, 1990 (among the Port, the Tribe and the City of Tacoma) and March 24, 1990 (one between the Tribe and the Bureau of Indian Affairs and one between the Port and the Tribe) (collectively, "the Puyallup Settlement Agreement"), together render it necessary or desirable to clearly define Reichhold's easement rights and obligations with respect to the monitoring wells as set forth below. The parties acknowledge that there are other agreements supplementing the Puyallup Settlement Agreement that are not pertinent to this Agreement and that have not been disclosed to Reichhold.
- F. Deeds conveying the Port Property to the United States in trust for the Tribe have been placed into escrow pursuant to the Puyallup Settlement Agreement.
- G. The parties now desire to enter into an agreement to grant to Reichhold an easement for the monitoring wells and other rights with respect to the Port Property in accordance with the foregoing, subject, however, to the terms and conditions hereinafter set forth.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

AGREEMENT

1. Easement for Monitoring Wells

1.1 Grant of Easement

The Port and the Tribe do hereby grant, convey and quitclaim to Reichhold for the benefit of the Reichhold Property a nonexclusive easement on, across, under, in and through the Port Property to reconstruct, monitor, use, operate, repair, replace, remove, maintain, relocate and alter the existing monitoring wells, together with all appurtenant fixtures and equipment that are necessary or convenient and that are directly related to the maintenance and functioning of the wells, and together with such rights of access as may be necessary or desirable for the full use and enjoyment of the rights granted herein and as are described below. Reichhold's rights hereunder shall be exercised on, across, under, in and through that portion of the Port Property described on EX-HIBIT C attached hereto and incorporated herein by reference and any additional or other area necessary to accommodate the relocation of any well(s) pursuant to Section 1.4. This grant of easement shall supersede and render null and void those certain agreements and permits from the Port of Tacoma to Reichhold (a) dated April 29, 1987 for the installation, maintenance and sampling of groundwater monitoring wells (which was recorded in the records of Pierce County, Washington under recording number 8911170239 as Exhibit C of Declaration and Affidavit of Easements); (b) dated February 3, 1988 for drilling and sampling soil borings; and (c) dated August 4, 1989 for the erection of a fence.

Reichhold's access rights under this easement shall be exercised in the areas described on EXHIBIT C-1 and shall be limited to those necessary to perform the monitoring, repair, maintenance, relocation and other related functions required to keep the wells in good, functioning condition and repair, to provide access to the wells, to use the wells to take groundwater samples and measurements, and otherwise to fulfill Reichhold's obligations under the RCRA Permit that relate to the maintenance and monitoring of the wells. Reichhold shall provide to the Port and the Tribe no less than fifteen (15) days' advance notice of Reichhold's intent to use its right of access, except that in cases of emergencies Reichhold shall provide the most advance notice that is reasonable under the The parties acknowledge that certain requirecircumstances. ments are imposed under the RCRA Permit necessitating access to the wells. The parties shall cooperate to schedule access at mutually acceptable times and to minimize disruption to activities on the Port Property.

1.2 Term

This Easement for Monitoring Wells shall be for a term of twenty-five (25) years commencing on the date this fully executed Agreement is approved in writing by the Secretary of the Interior of the United States of America.

1.3 Modification of Monitoring Wells

1.3.1 Reconstruction of Monitoring Wells

At such time as the then owner of the Port Property ("Owner") is ready to begin or change development activity that would be materially hindered by the wells, or any of them, the Owner may give notice to Reichhold specifying the wells that are a hindrance. Upon such notice and subject to approval by the EPA, Reichhold will modify the design of the well installations for the wells designated in the notice and reinstall them at grade to permit heavy commercial and industrial vehicular traffic consistent with the demands of a shipping terminal facility or other heavy industrial site on

the surface of the ground at the location(s) of the well(s). The Owner shall have the right to review and approve the design and specifications for the installations, provided, however, that the Owner's approval shall not be unreasonably withheld and the Owner shall be deemed to have approved the design and specifications if written notice is not given to Reichhold identifying any objections which the Owner may have within thirty (30) days of the date the design and specifications are submitted to the Owner; and provided further that the final design and specifications shall be subject to approval by the EPA; and provided further that the Owner's approval of the design and specifications for the installations shall not be deemed to be a determination by the Owner that such design and specifications are suitable or adequate to permit heavy commercial and industrial vehicular traffic as required by this Section 1.3. The act of approving plans and specifications under this Section 1.3 shall not, by itself, impose on the Owner any liability for damage that is at any time caused to Reichhold's facilities maintained on the Port Property under this Easement.

1.3.2 Relocation of Monitoring Wells

At the request of the Owner, and subject to approval by the EPA, Reichhold will relocate, reconstruct and reinstall all or any of the monitoring wells to an alternate location on the Port Property when, in the reasonable judgment of the Owner, relocation is necessary to permit improvements to be made or constructed at the well location. The Port and the Tribe acknowledge that: (a) each well is located to achieve important objectives under the RCRA Permit; (b) any request for relocation will be evaluated by the EPA as the relocation may affect those objectives; (c) the distance and direction any well may be moved may be limited by those objectives; and (d) any relocation(s) must not impair Reichhold's ability to meet the requirements of the RCRA Permit. Reichhold's obligation to relocate any well(s) under this Section 1.3.2 is expressly subject to approval by the EPA of the site of the proposed relocation. Reichhold agrees to use its best efforts in good faith to secure that approval.

1.4 Cost of Modifications of Monitoring Wells

- 1.4.1 During the first ten years of this Agreement, Reichhold shall bear the expense of modifications made to each monitoring well(s) under Section 1.3 only for:
 - (a) reconstruction twice; or
 - (b) reconstruction once and relocation once.

In each subsequent ten year period Reichhold shall bear the expense only for one relocation, if such relocation is requested by Owner pursuant to Section 1.3.2. 1.4.2 As to any monitoring well(s), the Owner may, at any time, direct Reichhold to make modifications to one well or more than one well in the manner provided in, and subject to, Section 1.3. Any modification under this Section 1.4.2 shall not be counted toward fulfillment of Reichhold's obligation under Section 1.4.1. The direct expense of such modification under this Section 1.4.2 shall be borne by the Owner.

1.5 Modification of Easement Upon Removal of Well

If at any time Reichhold shall have the right under the terms of the RCRA Permit to permanently remove and cease to use and monitor any monitoring well, Reichhold shall remove the same and restore the surface of the Port Property to the same structural and surface condition as the immediately surrounding area. This Easement for Monitoring Wells shall terminate with respect to such monitoring well(s) (Partial Termination"); however, this Easement for monitoring wells shall continue with respect to all other monitoring wells. Upon any Partial Termination the Easement Fee under Section 2.2 shall be reduced proportionately based on the number of wells existing prior to such partial termination.

1.6 Port Access to Well Data; Reichhold Access to Data Generated by Port

From time to time the Port may desire to have access to data from the wells. Reichhold shall provide to the Port (a) all reports Reichhold is required by the RCRA Permit to submit to the EPA with regard to the operation of the extraction well system, and (b) results of regular sampling from the wells made pursuant to the requirements of the RCRA Permit. In addition, upon reasonable notice to Reichhold, Reichhold will cause its consultant to take additional samplings requested by the Port at the Port's expense. It is agreed that, in most cases, two (2) business days' advance notice will be sufficient notice. Reichhold agrees that the charges for this work shall be reasonable.

Commencing on the date this Agreement becomes effective and through December 1994, and for each 12 month period thereafter for which Reichhold submits a written request in advance, the Port shall provide to Reichhold a quarterly list of information, studies, reports and other data concerning the physical condition of the Port Property as follows, and shall cooperate in good faith to provide copies of those items requested by Reichhold, it being the intent of the parties that Reichhold receive all materials of the nature described that Reichhold requests:

(a) groundwater monitoring reports from wells located on the Port Property, including results of chemical

analyses and water levels; (b) all final written studies, reports, investigations, analyses, plans for remediation or cleanup and assessments, and all final schedules for those items, that the Port is required to submit to the EPA, the Washington State Department of Ecology, or the Tribe under the terms of any memorandum of understanding, consent decree, administrative order or other agreement or order stemming from the Puyallup Settlement Agreement.

Compensation for Easement

2.1 Costs of Monitoring and Review

During the term of this Easement Reichhold shall pay to the Tribe a monthly amount which shall be full reimbursement to the Tribe for its costs of monitoring the use of the easement, the information generated by the monitoring wells, the progress of Reichhold's cleanup activities and related matters; provided, that if the parties enter into an easement agreement with respect to Reichhold's extraction wells located on the Port Property, and if that easement agreement also provides for payment of an amount for the costs of monitoring and review, then the payments made under the two agreements shall together constitute full reimbursement to the Tribe for the matters just described. Reichhold and the Tribe agree to establish the amount of the payment as Five Hundred Dollars (\$500) per month, payable annually in advance commencing on the date this Agreement is signed by all parties as provided in and subject to Section 10 and on each anniversary of that date during the term of this Agreement. The amount of this annual payment shall be increased every year by multiplying the then existing annual payment by 1.045.

2.2 Additional Consideration

As additional consideration for this grant of easement, Reichhold shall pay to the Owner an Easement Fee, payable monthly commencing on the date this Agreement is signed by all parties and has been approved in writing in the space provided on page 14 below by the Secretary of the Interior of the United States of America or his or her authorized designee. The initial amount of the Easement Fee shall be \$8,760.00 per year or \$730.10 per month. On each anniversary of the signing date described above, the Easement Fee shall be increased by multiplying the then existing Easement Fee by 1.045. The Easement Fee shall be increased an additional \$250.00 per month on March 23, 1993.

3. Termination of Easement

Upon the termination of this easement, Reichhold shall remove all structures, pipelines, wells and equipment placed by it or at its direction on or in the portion of the Port Property with respect to which the easement has terminated,

and shall restore the surface of the Port Property at that location to the same surface condition as the immediately surrounding area, which shall mean that the type, strength and compaction of the fill material used by Reichhold shall provide the same load-bearing capacity as that of the immediately surrounding area. This provision is in addition to, and does not relieve Reichhold of, obligations to perform contamination cleanup imposed on Reichhold by any and all other sources.

4. Notices

Notices required to be given under this Agreement shall be in writing and shall be given as follows:

If to the Port: Port of Tacoma

One Sitcum Plaza P.O. Box 1837

Tacoma, Washington 98421 Attn: Executive Director

If to the Tribe: Puyallup Tribe of Indians

3600 Port of Tacoma Road Tacoma, Washington 98424

If to Reichhold: Reichhold Chemicals, Inc.

3320 Lincoln Ave.

Tacoma, Washington 98421 Attn: John J. Oldham

Notices shall be deemed effective, if mailed, upon the second day following deposit thereof in the United States mails, postage prepaid, certified or registered mail, return receipt requested, or upon delivery thereof if otherwise given. Either party may change the address to which notices may be given by giving notice as above provided.

5. Compliance with Laws and Rules

All rights granted to Reichhold herein shall be exercised in accordance with the requirements of all applicable statutes, orders, rules and regulations of any public authority having jurisdiction; provided, Reichhold shall not be required to comply with any ordinances, rules or regulations enacted or adopted by the Tribe which render the exercise of the rights granted in this Agreement not feasible or practically impossible, or which impose any greater monetary payment than those agreed in this Agreement.

6. Work Standards

All work to be performed by Reichhold on the Port Property shall be completed in a careful, competent and workmanlike manner free of all claims of liens. Following any construction hereunder Reichhold shall remove all debris and restore the surface of the Port Property as nearly as possible to the condition in which it was at the commencement of such work, and shall replace any property corner monuments, survey references or hubs which were disturbed or destroyed by activities conducted by Reichhold or at Reichhold's direction.

7. Use of Easements

Reichhold shall conduct its activities under this Agreement in such a manner as to minimize any interference with existing and future surface uses of the Port Property by the Port, its tenants or assigns. Each party shall use its best efforts to mutually accommodate the other's requirements consistent with the rights reserved in this Agreement.

The Owner retains the right to fully use and enjoy the easement areas to the extent not inconsistent with the rights herein granted, including the Owner's right to control, manage, operate, lease, convey and use the Port Property and to grant other easements. The Owner shall not construct or maintain any buildings or other permanent structures (other than roadway) on or over any Monitoring Well. Consistent with the grant of rights to Reichhold in this Agreement, Reichhold shall cooperate with the Owner in good faith so as not to unreasonably hinder the Owner's development or use of the Port Property.

Neither the Tribe nor the Port nor any party in privity with the Tribe or Port concerning a development project on the Port Property or the resulting use of such property shall be liable to Reichhold for harm to Reichhold's facilities maintained on the Port Property under this Easement unless the harm results from or is caused by negligence of the Tribe or Port or their privy or an activity that is in violation of the Tribe's or Port's obligations under this Easement.

8. Hold Harmless and Indemnity Agreement

8.1 Reichhold agrees to defend, indemnify and save harmless the Port and the Tribe (each an "Indemnitee") (a) against any and all claims by and liability to third parties arising from Reichhold's exercise of its rights hereunder or from the presence or activities of Reichhold's agents, employees, or business invitees in connection with such activities; and (b) from and against any and all loss, damage, claims, penalties, liabilities, suits, costs and expenses suffered or incurred by the Indemnitees arising out of or related to the use, disposal, transportation, generation or sale of hazardous

or toxic wastes or substances (as those terms may be defined by applicable state or federal law) in, on or from the Port Property by Reichhold or the presence on the Port Property of such wastes or substances that were released by Reichhold. Reichhold's obligations under this Section 8 shall survive the expiration or termination of this Agreement.

- 8.2 Notwithstanding anything in Section 8.1 to the contrary, the parties intend and agree that the compensation paid by Reichhold under Section 2.1 (and under any agreement among all of the parties with respect to the extraction wells) is the only compensation that Reichhold is obligated to pay the Tribe for its costs in connection with (a) activities within the scope of Section 2.1 and (b) costs associated with the proper conduct of activities under Reichhold's RCRA permit. Additionally, with respect to the Tribe, Section 8.1 does not apply to: (a) activities within the scope of Section 2.1; (b) to costs associated with the proper conduct of activities under Reichhold's RCRA permit; or, (c) liabilities to the Port under the Settlement Agreement.
- 8.3 With respect to the Port, Section 8.1 does not apply to costs solely for the monitoring of Reichhold's activities under, or Reichhold's compliance with, the terms of Reichhold's RCRA permit. The exclusion of these obligations from this hold harmless and indemnity agreement does not, however, in any manner limit the Port's right to assert and pursue against Reichhold, in any appropriate forum, an action for reimbursement for such matters.
- 8.4 This hold harmless and indemnity agreement does not cover the Port's obligations to the Tribe or the Tribe's obligations to the Port under the Puyallup Settlement Agreement. The exclusion of those obligations from this hold harmless and indemnity agreement does not, however, in any manner limit the Port's right to assert and pursue against Reichhold, in any appropriate forum, an action for reimbursement for claims made by the Tribe against the Port.
- 8.5 Except as may be otherwise expressly limited in this Section 8, this hold harmless and indemnity agreement does apply to all other claims and liabilities arising under any other provision of law. In addition, except as expressly limited in this Section 8, this hold harmless and indemnity agreement does not in any manner limit the Tribe's right to assert and pursue against Reichhold claims related to hazardous or toxic wastes or substances.

9. Resolution of Disputes

9.1 Arbitration

9.1.1 Negotiation; Resolution by Arbitration

The parties agree that they shall make a good faith attempt to resolve by negotiation any dispute(s) arising out of this Agreement, including, without limitation, any dispute(s) relating to (a) the right(s) or obligation(s) of any party to this Agreement, (b) Reichhold's right of access to and use of the Port Property, or (c) interpretation or implementation of this Agreement. Any dispute arising out of this Agreement that cannot be resolved by negotiation shall be submitted to binding arbitration as described in this Section 9.

9.1.2 Arbitration Procedure

The demand for arbitration shall be in writing, shall be given to both other parties as provided in Section 4 of this Agreement and shall set forth the matter or matters to be arbitrated. The party making demand for arbitration shall immediately make application to the Judicial Arbitration and Mediation Service ("JAMS") for appointment of an arbitrator. If the parties cannot agree to a jurist from the JAMS panel, JAMS will provide a list of three available panel members and each party may strike one. The remaining member shall serve as arbitrator. If JAMS is unable to appoint an arbitrator for any reason, then the party making demand for arbitration shall promptly make application to the American Arbitration Association for appointment of an arbitrator.

9.1.3 Manner of Conducting Arbitration

The arbitration shall be conducted in accordance with the Commercial Arbitration Rules of the American Arbitration Association as then in effect. If the American Arbitration Association is not then functioning or commercial arbitration rules are not then in effect, arbitration shall be conducted in accordance with the requirements of said Chapter 7.04, Revised Code of Washington, or such other provisions of the statutory laws of the State of Washington as may be enacted in lieu of said Chapter 7.04; provided, however, that any reference made in that Chapter to the courts of the State of Washington shall instead be deemed a reference to the appropriate court as spelled out in Section 9.1.5, below. All arbitration proceedings shall take place in Tacoma, Washington. arbitration proceeding, each party shall have the power to call for testimony any employee, agent or officer of any other party, and all other rights to discovery afforded under the then applicable Federal Rules of Civil Procedure or rules or

laws applicable to Federal Court proceedings adopted in lieu thereof shall be applicable.

9.1.4 Decision of Arbitrator

The decision of the arbitrator shall be given in writing and shall be binding and conclusive upon the parties.

9.1.5 Enforcement

If any party fails to abide by the procedures provided, or adopted by reference, in this Section 9, or if any party fails to comply with the decision reached by an arbitrator, enforcement of the procedural requirements or decision shall take place in the Southern Division of the United States District Court for the Western District of Washington. parties believe and intend that the United States District Court shall have jurisdiction over any such action. If, however, that court determines that it does not have jurisdiction to hear the action, enforcement shall take place in Puyallup Tribal Court; provided, however, that the Tribal Court's jurisdiction shall be limited to enforcement of the requirements of this arbitration procedure or the arbitrator's decision. The governing law and standards in any enforcement action filed in Tribal Court shall be the requirements of this Agreement, the Commercial Arbitration Rules of the American Arbitration Association and, to the extent that they do not conflict with those Rules or this Agreement, Chapter 7.04 of the Revised Code of Washington.

9.1.6 Fees

The fees and expenses of the arbitrator shall be borne equally by the parties. Each party shall bear its own witness and attorneys' fees.

9.1.7 No Modification of Agreement

The arbitrator shall have no power to alter or modify any provision of this Agreement or to render any award which by its terms effects any such alteration or modification.

9.2 Limited Waiver of Sovereign Immunity and Consent to Jurisdiction

The Tribe hereby enters into a limited waiver of its sovereign immunity from suit on the following terms and conditions: The Tribe expressly waives its immunity from suit only for matters that meet all of the following conditions: (a) relate to disputes arising out of this Agreement, (b) are filed by Reichhold, its successors and assigns and (c) are brought to enforce compliance with the arbitration procedure or to enforce an arbitrator's decision rendered pursuant to the procedures set forth in this Section 9. The Tribe con-

sents to suit only in the Southern Division of the United States District Court for the Western District of Washington and in Puyallup Tribal Court. The Tribe hereby agrees to submit to the jurisdiction of those courts to the extent provided in this Section 9.2.

9.3 Tribal Authority

By executing this Agreement on behalf of the Tribe, the person or persons doing so represent and certify that all necessary steps have been taken under the constitution, laws, ordinances and rules governing the Tribe to approve and make effective the Tribe's joinder in this Agreement, specifically (but not by way of limitation) the Tribe's consent to jurisdiction and waiver of sovereign immunity set forth in Section 9.2 above; provided, however, that the Tribe's execution of this Agreement does not satisfy the requirement that the Agreement be approved by the United States Secretary of the Interior in order to become effective.

10. Condition to Effectiveness of Agreement

This Agreement shall not be effective until it has been approved in writing in the space provided below by the Secretary of the Interior of the United States of America or his or her authorized designee. Notwithstanding the foregoing, Reichhold shall commence payments under Section 2.1 of this Agreement upon full execution by the Port and the Tribe. If this Agreement is not approved by the Secretary of the Interior or his or her authorized designee, and if the parties do not reach any other agreement to achieve the purposes of this Agreement that is so approved, then the Tribe shall reimburse to Reichhold all payments made under Section 2.1.

11. Successors and Assigns

The rights herein granted and the duties hereby agreed to shall inure to the benefit of and be binding upon the parties' respective successors and assigns.

12. Reexecution

The Tribe and the United States Department of the Interior shall execute this Agreement once again upon recording of a deed to the Port Property conveying it to the Tribe. Failure of the Tribe and the United States Department of the Interior to reexecute this Agreement upon recording of such a deed shall excuse Reichhold from any obligation under its terms until it has been so executed.

13. Port Obligations

Nothing in this Agreement waives, modifies or alters the obligations of the Port to the Tribe under the Puyallup Settlement Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement through their appropriate officials and representatives.
